

The first thing to download and read carefully is the App. Package which contains the instructions for application, you must enclose a check for \$100 and copies of Ids, it can only be a sale application, since rentals are restricted for 2 years.

You will also need to sign and notarize the Lease restriction and attach it to the application pack, this will save you time, because, though not strictly necessary, the manager will stop precessing the application until you do. The rest are the condo by-laws and amendments.

The whole process can take 2 to 3 weeks, so plan accordingly.
